Medieval Low Poly Asset Pack Licence Agreement (ThatDevDylan)

How you can use these assets

You're free to:

- Use these assets in your own projects, both free and paid.

- Use them in games, films, videos, and other interactive stuff.

- Edit, tweak, mash-up, and customize them however you like.

- Use them to learn, study, and reverse-engineer how they were made.

Credit is **not required**, but always appreciated.
 Example: `Assets by [ThatDevDylan]`

What you're not allowed to do

You **cannot**:

- Resell the assets themselves, even if you've edited or modified them.

- Give or share the raw files with friends, teammates, clients, or anyone else.

- Upload the assets (original or edited) to any website, drive, or repo for others to download.

- Put the assets (original or edited) into another asset pack, template, or "starter kit."

- Claim you made the original assets.

Using them in your projects

- You can ship and sell projects that use these assets (like games, films, cinematics, etc.).

- Just don't make it easy for people to grab the raw asset files out of your project and reuse them as assets.

It is important to note that this asset pack is not exclusive. Multiple people can purchase it, and anyone who buys it is free to use the assets.

By downloading and using this pack, you agree to these terms.
